Important notes

Great Britain Veterinary Surgeons Act, 1966; Medicines Act, 1968; Cruelty to Animals Act 1911

Only a qualified veterinary surgeon may legally treat or prescribe for your horse. If an owner consults a non-vet and thereby fails to alleviate suffering for his or her animal, prosecution under the 1911 act is a possibility.

Please check the legal requirements of your own country

Please note that the benefits stated in this e-book are based on people's experiences with their horses with the only **certified** pure therapeutic grade essential oils available. For the brand please google: certified pure therapeutic grade essential oils

The information in this e-book is not intended to diagnose, treat, cure, or prevent any disease. Please also refer to the important notes on the next page.
