

A Student's Experience

"The course was far more detailed and more info than I thought I was going to be getting which is awesome! And I now have a better understanding of how energy works and how to explain it to people.

Equine Health Practitioner Testimony

Tracey Ferguson, Animal Health Practitioner

I'm so glad I found Valee and her Reiki courses. Reiki has enhanced my life in so many ways and has helped me to see the world in a whole new way. It now forms a large part of my treatment toolkit when treating myself, my own animals and also client's animals. It boosts the power of any craniosacral treatments I do and I also use it a lot for distance healing and communication sessions with animals. It has become the one thing that brings everything else together. Before learning Reiki I had done various other treatment courses and still found myself looking for something else as it didn't quite feel complete. Since learning Reiki I look at other forms of treatment, be it energetic, manipulative or mechanical, and I know that I can achieve the exact same results with Reiki.

I would thoroughly recommend Valee's Reiki courses to anyone seeking to enhance their own health and wellbeing, or anyone looking for an effective tool to treat family, friends and animals.

My Reiki Learning Experience

B.B., Dannevirke

About a year ago, I was introduced to Reiki when I purchased a horse who was unknowingly in desperate need of some emotional healing and I didn't know how to help her. A professional horse person recommended that I learn Reiki healing and that I contact Valee More as an instructor/mentor/master. I followed up on the suggestion and currently find myself completing my Reiki III training all via correspondence. It's been an amazing experience of awakening, expansion of perspective, healing, and learning.

The course was comprehensive in that it taught me gradually and thoroughly with lots of hands-on work to build my confidence and skills. The manuals encompass the Reiki hand positions for treatments, provide diagrams and guidelines, include research articles, outline lessons in energy awareness, and are complimented by lessons in Reiki "thinking." I enjoyed the freedom of doing correspondence work because it allowed me to proceed at my own pace, in my own time, and with extra attention to those areas of my choice. There was always support, encouragement, and guidance from Valee whenever I needed it, as well as insightful and helpful feedback on my work. I would highly recommend Valee's course to others.

When I started the course, I was rather unsure of the whole energy system and about Reiki. Today, I can't learn enough! The experiences I had while learning Reiki changed my whole perspective on the power of energy healing, on myself, and my connection to the world. I learned to listen to my intuition; to feel the energies of the spirit beings around me and to ask for their assistance with healing sessions; and to sense the energies of animals and people and distinguish where healing was needed. I am able to connect with my animals on a whole new level now. I had amazing visions which helped me to understand myself more fully, to grow emotionally, mentally, and spiritually, to heal past traumas, to release negative energy patterns, and to see the world and all its creatures as part of one connected energy. Reiki has had an amazing influence on my life and I would recommend studying Reiki for anyone who wishes to connect with the universal life force energy and to help heal themselves, their animal companions, other beings on this planet, as well as the planet itself. It's great to be a part of the positive energy influence helping to heal our planet. Thanks Valee for guiding me on a truly wonderful and amazing journey.

My Reiki Learning Experience

By Lisa Noonan

My path to Reiki evolved through an interest in Bowen therapy. I had arranged for my horse to receive a few Bowen treatments, and throughout these treatments I became increasingly keen to learn more myself about animal healing. I attended an equine massage course, but felt that the therapy was too physical for me personally-I wanted to learn how to treat animals utilising a gentler and more intuitive therapy. I did some research and decided that Reiki could be just what I was looking for. A search of the internet failed to turn up anyone in New Zealand offering equine and pet training courses, so I resigned myself to having to go to England to study, and commenced training as a human practitioner instead, just to get the ball rolling. This was obviously meant to be, as it was during this course that I met someone who gave me Valee's number!

I immediately rang Valee, and discovered that she had a course commencing almost straight away! It was really exciting to be finally traveling along the path that I had wanted to be on for so long. Valee is an incredibly spiritual woman, with infinite knowledge and wisdom that she is very willing to share. The course itself is a perfect mix of theory and practical "hands on" work. The case studies that Valee requires to be completed before obtaining your qualification certificate are invaluable for ensuring that you get out there and practice on strange horses or pets and learn to deal with each individual's quirks and issues. Valee's feedback after reading the case studies was extremely useful also -she made some very perceptive comments that I have been able to incorporate into my current Reiki practice.

With Valee's full support, I have decided to start my own equine and pet Reiki practice, and have been inspired and assisted by Valee in doing this. You are certainly not left floundering on your own after the course finishes -I have maintained regular contact

with Valee to talk through any practical Reiki issues that have arisen, and also in a mentoring capacity with regard to the start-up of my own practice.
